

Lab Assignment No. 1

Name	Harsh Trivedi
PRN	24070122516
Title	Basic Git Repository Setup and Workflow

Implementation & Theory	Evidence / Description
GitHub repository	Create a new repository Repositories contain a project's files and version history. Have a project elsewhere? Import a repository. Required fields are marked with an asterisk (*). 1 General Owner *  xzeyo Repository name * devops-course-work ✓ devops-course-work is available. Great repository names are short and memorable. How about curly-winner? Description devops lab work repo 20 / 350 characters 2 Configuration Choose visibility * Choose who can see and commit to this repository Public Add README READMEs can be used as longer descriptions. About READMEs Off Add .gitignore .gitignore tells git which files not to track. About ignoring files No .gitignore Add license Licenses explain how others can use your code. About licenses No license Created the public repository `devops-course-work` in GitHub
git init	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work> git init</pre> Initialized empty Git repository in H:/college/Degree/Sem7/devops/devops-course-work/.git/ git init Initialized an empty Git repository in the local `devops-course-work` project directory.
Remote setup	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work> git remote add origin https://github.com/xzeyo/devops-course-work</pre> git remote add origin, Configured the GitHub repository as the `origin` remote using the repository URL.

Implementation & Theory	Evidence / Description
Stage + verify	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work> nvim README.md PS H:\college\Degree\Sem7\devops\devops-course-work> git add .\README.md PS H:\college\Degree\Sem7\devops\devops-course-work> git status On branch master No commits yet Changes to be committed: (use "git rm --cached <file>..." to unstage) new file: README.md</pre> git add + git status, Added 'README.md' to the staging area and verified that it appears under Changes to be committed.
Initial commit	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work> git commit -m "initial readme.md added" [master (root-commit) 2a5a74e] initial readme.md added 1 file changed, 2 insertions(+) create mode 100644 README.md</pre> git commit, Created the initial commit with the message 'initial readme.md added'.
Push to GitHub	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work> git push origin master Enumerating objects: 3, done. Counting objects: 100% (3/3), done. Delta compression using up to 16 threads Compressing objects: 100% (2/2), done. Writing objects: 100% (3/3), 269 bytes 269.00 KiB/s, done. Total 3 (delta 0), reused 0 (delta 0), pack-reused 0 (from 0) To https://github.com/xzeyo/devops-course-work * [new branch] master -> master PS H:\college\Degree\Sem7\devops\devops-course-work> █</pre> git push origin master, Successfully pushed the local 'master' branch to the GitHub remote; the terminal confirms 'master'.
	The local Git repository was connected to GitHub, README.md was staged and committed, and the commit successfully pushed to the remote master branch.
	GitHub Repository > git init > Add Remote > Create README > git add > git commit > git push
