

Lab Assignment No. 2

Name	Harsh Trivedi
PRN	24070122516
Title	Git Branching, Feature Update, Push and Merge

Implementation & Theory	Evidence / Description
Push to GitHub	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git push origin master Total 0 (delta 0), reused 0 (delta 0), pack-reused 0 (from 0) To https://github.com/xzeyo/devops-course-work 0fc723d..b73b5f7 master -> master</pre> git push origin master. The current master branch was pushed to the GitHub repository.
Status + Branch	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git status On branch master nothing to commit, working tree clean PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git branch * master</pre> git status and git branch. The repository status was checked and the available branches were displayed.
Feature Branch	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git checkout -b feature-update Switched to a new branch 'feature-update' PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git status On branch feature-update nothing to commit, working tree clean</pre> git checkout -b feature-update. A new branch named feature-update was created and switched to. The status was checked again.
README Update	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> nvim ../README.md PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git status On branch feature-update Changes not staged for commit: (use "git add <file>.." to update what will be committed) (use "git restore <file>.." to discard changes in working directory) modified: ../README.md no changes added to commit (use "git add" and/or "git commit -a")</pre> The README.md file was updated using echo. After making the change, git status was used to check the modified file.

Lab Assignment No. 2 — Implementation & Theory (Continued)

Implementation & Theory	Evidence / Description
Stage + Commit	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git add ../README.md PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git status On branch feature-update Changes to be committed: (use "git restore --staged <file>..." to unstage) modified: ../README.md PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git commit -m "Updated Readme File" [feature-update b73b5f7] Updated Readme File 1 file changed, 4 insertions(+), 1 deletion(-)</pre> git add ../README.md and git status. The README file was added to staging and checked before committing. The changes were then committed with the message "Updated Readme File".
Push Feature Branch	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git push origin feature-update Enumerating objects: 5, done. Counting objects: 100% (5/5), done. Delta compression using up to 16 threads Compressing objects: 100% (3/3), done. Writing objects: 100% (3/3), 375 bytes 375.00 KiB/s, done. Total 3 (delta 0), reused 0 (delta 0), pack-reused 0 (from 0) remote: remote: Create a pull request for 'feature-update' on GitHub by visiting: remote: https://github.com/xzeyo/devops-course-work/pull/new/feature-update remote: To https://github.com/xzeyo/devops-course-work * [new branch] feature-update -> feature-update</pre> git push origin feature-update. The feature-update branch was pushed to GitHub successfully.
Checkout Master	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git checkout master Switched to branch 'master' PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git status On branch master nothing to commit, working tree clean</pre> git checkout master and git status. The branch was changed back to master and the working tree was checked.
Merge Feature	<pre>PS H:\college\Degree\Sem7\devops\devops-course-work\assignment-2> git merge feature-update Updating 0fc723d..b73b5f7 Fast-forward README.md 5 ++++- 1 file changed, 4 insertions(+), 1 deletion(-)</pre> git merge feature-update. The feature branch was merged into master and the README changes were applied with a fast-forward merge.
	The feature-update branch was created and the README file was changed using echo. The changes were committed and pushed to GitHub. The branch was then merged back into master.
	Status; create feature-update; update README; add; commit; push; checkout master; merge.
